

Laminar Flow Elements FAQs

Q: How do I know which version of the M2110 is right for my application?

A: There are three versions available. The M2110P measures pressure, the M2110F measures flow and the M2110L measures level.

Q: How difficult is it to set up the M2110?

A: All units are programmed to allow easy configuration of the gauge through the front keypad.

Q: Can I prevent someone from resetting the gauge once it is configured?

A: Yes. The lockout setting prevents inadvertent resetting of the gauge.
