

## M200LS FAQs

Q: What does the M200LS measure?

A: The M200LS pressure sensors are available to measure gauge, differential, absolute or vacuum pressure.

Q: Can the M200LS?

A: The M200LS can be recalibrated in the field for zero, span, and linearity.

Q: Can an automatic shut-off be set to avoid draining the battery?

A: User selectable shut-off can be programmed to turn off at 10, 20, 30, 45 or 60 minutes.
