

M201 FAQs

Q: How much control do I have over the automatic shut-off?

A: The user selectable shutoff is programmable at 10, 20, 30, 45 or 60 minutes. This feature can also be disabled by the user.

Q: Can I use the M201 with liquid?

A: No. The M201 can only be used with clean, dry, non-corrosive gases. If your application involves liquid or condensation you should order the M200-DI.

Q: What is included with my M201?

A: A protective red boot, 4 AA Alkaline batteries and user's manual.
