

M202 FAQs

Q: What type of materials can I use with the M202?

A: The pressure sensor is all 316SS allowing it to be used with liquids, gasses and corrosives compatible with 316SS.

Q: Is the M202 Intrinsically Safe?

A: Yes. The M202 is Intrinsically safe per ATEX and CULus.

Q: Is a NIST certificate supplied for all models?

A: Yes. This is included with your M202 order.
