

M203 Altimeter Indicated Air Speed Tester FAQs

Q: How much use can I get out of my M203 before I need to replace the batteries?

A: Four AA alkaline batteries provide more than 100 hours of continuous use.

Q: How do I set up the M203 to check air speed instrumentation?

A: Pressing the ALT / IAS button toggles the M203 to Indicated Air Speed Mode for checking air speed instrumentation.

Q: Can the M203 be recalibrated in the field?

A: Two re-zeroing methods provide convenient field recalibration.
