

Modular, Easy, and Always Accurate.

One Gauge, Multiple Pressure Ranges.

This flexibility can only be
provided by Meriam!

meriGauge[®] *plus*

Meriam's Modular Calibration System

Like Owning 10 Pressure Gauges in 1 Device

The only modular calibration system on the market that allows you to purchase a single gauge and add only the pressure ranges you need, creating significant cost savings.

Ten interchangeable pressure range sensors (15 psi – 3,000 psi).

One Gauge - Multiple Pressure Ranges

Ultimate Flexibility

One Gauge – Multiple Pressure Ranges.
The modularity of the meriGauge® plus system creates the flexibility to purchase only the ranges you need. No need to purchase a new gauge for each range. Just buy an additional sensor.

10 different pressure ranges - 1 Gauge

This flexibility can only be provided by Meriam!

Easy to Use

Lightweight, portable pressure calibration. Carry only one gauge!

- Icon-based, single-function buttons
Internationally recognizable, no scrolling through multiple functions
- Gauge works with all meriSense sensors
- Portable or fixed installation, even in narrow spaces
- The small sensors contain the calibration so they can be easily exchanged; therefore gauge is always available

Easy to Read

Large 2 Line Display Comes Standard

- Concisely displays more info at a glance
- High visibility from a distance
- Crisp digital readout in any or no light

Always Accurate

- Compound
0 to 20% of Range:
 $\pm (0.02\% \text{ of Full Scale})$
20% to 110% of Range:
 $\pm (0.1\% \text{ of Reading})$
- Vacuum*: $\pm (0.02\% \text{ of Full Scale})$
*Vacuum = -14.5 psi
- Ranges 15-3000psi
